- American College of Radiology Annual Meeting

June 2023

- ASRT Preconference Board of Directors Meeting
- ASRT Educational Symposium and Annual Governance and House of Delegates Meeting
- ASRT Postconference Board of Directors Meeting

Most Memorable Experiences:

Working for the ASRT and our profession never loses its luster. Each experience and relationship built is a fervent reminder of the impact we are built to impress. Welcoming Dr. Melissa Pergola as our new CEO-ED was a monumental transition as we celebrated the contributions of our retiring CEO-ED Dr. Sal Martino. I am confident we will continue to see a gradual, but crucial shift in our culture. As medical imaging and radiation therapy professionals, it is time to mobilize the equity we have earned as contributors to health care.

Closing Remarks:

Being RAD is more than a phrase; it is an affirmation of our talents contributing to patient care and community. The same community that we are a significant part of as people and professionals. We can never forfeit the opportunity to champion our R.T.s in a way that is undeniable.

A handwritten signature in black ink that reads "B. Smith". The signature is written in a cursive, flowing style.
